

NATIONAL LUNG CANCER SCREENING PROGRAM (NLCSP)

PATIENT DETAILS

Patient Name: Date of birth: Address: Telephone (H): Medicare No.:

CLINICAL INFORMATION

This patient meets the eligibility criteria of the National Lung Cancer Screening Program

Type of screening test:

- New participant Baseline study (please complete the Family History section below)
Interval Scan to monitor previous findings (1,2,3, 6 or 12 month interval scan as determined in previous NLCSP LDCT report) specify interval: month
Participant returning for 2 yearly scan
Participant re-entry into screening post program exit

Any Previous Chest CT (if known) Date: Radiology provider/location: (If known)

Family history of lung cancer in a first-degree relatives (only required for first/baseline low dose CT (LDCT)) Yes No (First-degree relatives include parents, siblings or children)

History of any cancer (if yes, provide details)

Additional clinical / other notes, if required

REFERRING DOCTOR DETAILS:

Name: Provider number: Address: Phone: Fax: Doctor's Signature: Date: Send copy to:

CRT Imaging, a trusted provider of the Australian Government's National Lung Cancer Screening Program (NLCSP), delivers precise, high-quality imaging with sub-specialist oncology radiologists. The program enhances health outcomes by detecting lung cancer early. Alongside NLCSP-compliant low-dose CT chest screening, we offer contrast CT, ultrasound and DEXA for additional actionable findings. For high or very high-risk nodules, CRT provides advanced PET/CT imaging if recommended by the lung cancer multidisciplinary team (MDT) for further investigation outside the program.

For optimal image comparison, we recommend participants return to CRT Imaging for future studies.

Cancer Radiology and Therapy

This document outlines preparation guidelines for various adult imaging procedures. Here's a simplified summary of each section to help understand better:

## IMPORTANT GENERAL NOTES

- For children or patients who might struggle with the prep: Contact staff for advice.
- For specific clinical questions: Consult a radiologist.
- If you have allergies, asthma, or diabetes: Inform reception when booking. You may need medication to reduce allergy risks, available from the office.

## X-RAY

## MAMMOGRAPHY

- Do NOT use talcum powder or deodorant on the day.
- Wear a two-piece outfit for convenience.

## ULTRASOUND PREPARATION

### ABDOMINAL

- Fast for 6 hours.
- No smoking.
- Take regular meds with a sip of water.
- Avoid milk or soft drinks.

### RENAL OR PELVIC

- Bladder must be full.
- Drink 1 litre of clear fluid or cordial finishing 1 hour before the appointment.
- Do not urinate before the exam.

### RENAL ARTERIES / ABDOMINAL AORTA DOPPLER

- Fast for 12 hours.
- No smoking during this period.

### NO PREPARATIONS NEEDED FOR

- Breast ultrasound
- Thyroid ultrasound
- Duplex carotid
- Leg veins

## MAGNETIC RESONANCE IMAGING (MRI)

- Inform the receptionist if you have a pacemaker, intracranial clip, or inner ear implant when booking.
- Ask for preparation instructions at the time of booking.

## NUCLEAR MEDICINE - SPECT CT

CRT Nuclear Medicine - CONTACT: 07 5638 7168  
2446 Gold Coast Highway, Mermaid Beach QLD

## PET CT

CONTACT: 07 5638 7168

## BONE MINERAL DENSITY (BMD)

- No preparation required.
- Wear a two-piece outfit (e.g., top and pants/skirt)

## C.T. SCANNING

### ABDOMEN, PELVIS, CHEST, HEAD

- No food for 4 hours before the scan.
- Drink 1 glass of water every 15 minutes starting from \_\_\_\_ am/pm (approx. 1.5 litres total)
- You may go to the toilet as needed.

### LUMBAR SPINE, SINUSES

- No preparation required

Ground Floor,
